sisay molla

ML and AI model Trainer and Full stack django developer
Addis Ababa, Ethiopia

Summary

With over 4 years of experience in web development and design, I've cultivated a versatile skill set that bridges aesthetics with functionality. My journey began with frontend and backend development, working extensively with Django to create dynamic, user-friendly web applications. Over time, I specialized in building interactive features using AJAX for seamless user experiences, designing custom Django views for complex requirements, and ensuring optimal database performance with PostgreSQL.

Beyond technical coding, my role often touches on project management, as a developer and client interaction, where I've applied my skills to translate ideas into polished, production-ready solutions. Working with a team, I've also played a part in brand development, most notably for UNION—service based business company where we leveraged a blend of marketing and digital branding to strengthen its online and physical presence.

Achievements in my career include successfully deploying multiple full-stack projects on platforms like Vercel, overcoming challenges such as Python versioning compatibility and implementing robust, scalable models that meet client requirements. In my time as a developer, I've also enjoyed refining user experience design, from aesthetically simple landing pages to interactive ad features, making every project not only functional but visually compelling.

With a solid foundation in Python, HTML, CSS, JavaScript, and an eye for UI/UX design, I'm committed to creating efficient, modern, and user-centric applications. Each project continues to be an opportunity to push my skills further, bringing value, innovation, and attention to detail to everything I develop.

Experience

Union General Service

4 years 4 months

Main developer

November 2023 - Present (1 year 4 months)

Adiss abeba Ethiopia

I work for union a company gives many services as a main fullstack developer

Django Developer

November 2020 - Present (4 years 4 months)

Addis Ababa, Ethiopia

hybrid

Kaggle

Kaggle compilation participant

November 2022 - Present (2 years 4 months)

Ethiopia

I participate at gaggle ml and deep learning competition and I acquire a good insights

Arbaminch University

Maintenance Worker

October 2022 - January 2024 (1 year 4 months)

Arbaminch Ethiopia

This is for my internship program

Education

Arbaminch University

Bachelor's degree, Computer Scince · (January 2020 - January 2034)

Arbaminch University

Bachelor's degree, Computer Science · (January 2020 - April 2024)
